

DSP Provides the Technology You Deserve.

Conventional		DSP	DSP's ITEM
 <p>Require Advanced Fabrication Process</p>	<p>Easy to Install</p>	 <p>Easy to Install with "K-Panel", Advanced Flatness</p>	<p>INOXTEEL® ALUSTEEL®</p>
 <p>Sheet Type, color uniformity</p>	<p>PVD Roll to Roll</p>	 <p>Coil type, 600m² Stable color uniformity</p>	<p>INOXTEEL® ALUSTEEL® INOXTEEL flex®</p>
 <p>Coating diminish within 3 years after Installation</p>	<p>Guaranteed Weatherability</p>	 <p>10-year Weatherability Guaranteed</p>	<p>INOXTEEL® ALUSTEEL®</p>
 <p>Separate Production Process, Redundant Process</p>	<p>Advanced Productivity for Elevator Market</p>	 <p>Improved efficiency in Production process</p>	<p>INOXTEEL®</p>
 <p>Limited Flatness</p>	<p>Advanced Flatness</p>	 <p>Advanced flatness</p>	<p>INOXTEEL® ALUSTEEL®</p>
 <p>Over 50 Gloss Unit</p>	<p>Glossiness Controlled</p>	 <p>Reduced Gloss Unit: 20-30</p>	<p>DuraMatte®</p>
<p>Required to Register Cool Roof Rating to ECRC / Solar Reflectance Index Required to be Registered / SRI value Requires 1) Solar Reflectance (SR) 2) Thermal Emittance (TE)</p>	<p>Cool Roof Rating Council Rating</p>	<p>Perfect SRI Value is '122' of Mirror Finish / DSP's Roofing Material achieved '122' SRI Value</p>	<p>DuraMatte®</p>
 <p>Building needs to be cleaned</p>	<p>PCC, Self - Cleaning</p>	 <p>Self -Cleaning by PCC</p>	<p>INOXTEEL®</p>
 <p>Rain, Wind, Noise and Vibration Resonates</p>	<p>Vibration Damping Property</p>	 <p>Rain, Wind, Noise and Vibration Attenuated</p>	<p>INOXTEEL® ALUSTEEL®</p>
 <p>High-rise buildings; Vulnerable to fire</p>	<p>Fire Resistant Material</p>	 <p>Fire Resistant Material</p>	<p>INOXTEEL® ALUSTEEL®</p>

DSP's Next-Generation Technology

Roll to Roll PVD Coating

Mass Production Scale, Economical and Efficient PVD Coating by Roll-to-roll process. (Ti-Ion Coating)

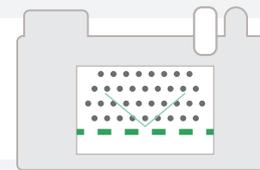

Nano Ceramic Coating (NCC)

Easy Maintenance by Easy Cleaning Feature of Nano Ceramic Coating. (NCC)

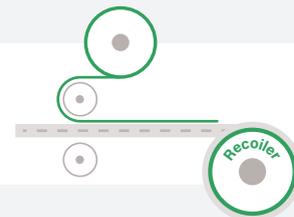

BB (Bead Blast) Gloss Control Surface Treatment

Technology which blasts fine but uniform ceramic beads with the consistent pressure to Control the Glossiness of the Surface.

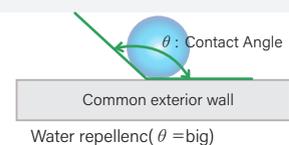

Powerful metal-on-metal Laminating Technology

lamination technology which provides Cost & Resource Reduction with Increased productivity.

Photocatalyst Coating

Coating technology which accelerates self-cleaning by using light energy, and rainwater to wash away contaminants through Redox Reaction
